DETAILED ACTION
EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Jose[h Fox on January 27, 2009.

In the claims:

Claim 5 (renumbered claim 1), Line 7: the word "core" is deleted and replaced with the word --cores--.

Allowable Subject Matter

2. Claims 5 and 6 (renumbered 1 and 2) are allowed. The following is an examiner's statement of reasons for allowance: the closest prior art of record is Iwami (JP '033). Regarding independent claim 6, Iwami teaches a tire construction including a fastening bead core and a non-fastening bead core, wherein the inner circumferential radius of said non-fastening bead core is smaller than the radius of said fastening bead core. In this instance, however, a bead filler is not positioned only on a side of the non-fastening bead core (depicted as being present on side of both fastening bead core and non-fastening bead core- reference characters 4 and 4a). One of ordinary skill in the art

at the time of the invention would not have found it obvious to remove bead filler 4 of Iwami such that the claimed tire construction is satisfied.

As to independent claim 5, none of the prior art references of record included a fastening bead core and a pair of non-fastening bead cores, wherein the inner circumferential radius of each of the non-fastening bead cores is smaller than the radius of said fastening bead core.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
